Dear Soon Huat,

Thank you for your letter, and for updating me on Sian Chay's activities.

I am happy that Sian Chay has embarked on several initiatives to fight Covid-19. Your generous support for other charities, especially those with fewer means, is deeply appreciated. I am also grateful that you are offering vulnerable groups free consultations and subsidised medicine. It will assure them that society is looking out for them in these trying times.

Beyond the fight against Covid-19, you play a valuable role bringing our community together and addressing their healthcare needs. I know many of our seniors have been looking forward to the reopening of Traditional Chinese Medicine clinics like Sian Chay. I hope that your services will help soothe their aches and pains, and bring them comfort and relief.

On a more personal note, thank you for your strong support for Ang Mo Kio GROs as Patron of Sengkang South CCC. I hope we can count on your continued support in the coming years.

Yours sincerely

Lee Hsien Loong
