Toh Soon Huat.

Thank you for your letter, and for Sian Chay's Medical Institution's generous donation to the Invictus Fund.

2 Under your leadership, Sian Chay has embodied the spirit of the Singapore Together movement, helping others in times of need. Caring for the vulnerable should never cease, even more so during these difficult times. Sian Chay's donation will give a timely boost to the Fund and enable our social service agencies to continue providing critical social services to vulnerable individuals, families and communities. I am also heartened that Sian Chay continues to care for our Pioneer Generation and vulnerable groups with free consultations and subsidised medicine during this challenging period.

3 How we respond and support one another is testament to how united we are as a nation. I hope that your donation will encourage other organisations to come forward and contribute. All these efforts will go towards making a difference in our fight against COVID-19. Together, we will overcome this crisis, and emerge stronger.

4 I wish you and all at Sian Chay good health.

Thank You!

Yours sincerely

HENG SWEE KEAT
